Asymptomatic SARS-CoV-2 carriers, update on remdesivir, Pfizer vaccine response in recovered COVID-19 patients

Peer reviewed journals featured:

- Systematic reviews on:
  - Asymptomatic SARS-CoV-2 carriers [here]
  - Remdesivir treatment (updated) [here] and associated practice points from the American College of Physicians [here]
- A retrospective study on the failure of non-invasive respiratory strategies in adults with COVID-19 [here] and associated commentary [here]
- Observational studies on:
  - Secondary infection rates in patients requiring ECMO [here]
  - SARS-CoV-2 transmission in day-care centres in France [here]
- A online population survey on PTSD symptoms in COVID-19 survivors in the UK [here]
- A single-centre survey on COVID-19 vaccine hesitancy among children’s hospital staff [here]
- Commentary on:
  - SARS-CoV-2 vaccination and cancer clinical trials [here]
  - Social isolation and loneliness imperatives for health care in post COVID-19 world [here]
  - Experts offer advice to support confidence with the rollout of COVID-19 vaccines [here]
- Editorials on:
  - Growing backlog of planned surgery in England due to COVID-19 [here]
  - Lessons about pandemics from history [here] and [here]

Letters and correspondence discussed:

- A SARS-CoV-2 mutation tracker, focusing on critical variants [here]

Pre-peer review articles featured:

- Immune responses to second dose of BNT162b2 mRNA (Pfizer-BioNTech) vaccine among individuals who have recovered from COVID-19 infection [here]
Guidance and reports

- The World Health Organization published guidance on:
  o Conducting community engagement for COVID-19 vaccines [here](#)
  o Acceptance and demand for COVID-19 vaccines [here](#) and a communications plan template [here](#)
  o Gathering and using data on the behavioural and social drivers of vaccination [here](#)
  o 10 steps to community readiness for a COVID-19 vaccine, treatment or new test [here](#)

News and blogs

- Testing for SARS-CoV-2 in asymptomatic people [here](#)
- A guide on rapid coronavirus tests [here](#)
- A point of care test that turns a smartphone into a fluorescence microscope [here](#)
