Data and Benchmarking Forum

ACI Stroke Network

Monday, 18 November 2019
Data and Benchmarking Forum
ACI Stroke Network

Overview
The Agency for Clinical Innovation (ACI) works with clinicians, consumers and managers to design and promote better healthcare for NSW.

We provide expertise in service redesign and evaluation, specialist advice on healthcare innovation, initiatives including clinical guidelines and models of care, implementation support, knowledge sharing and continuous capability building.

Our Clinical Networks, Taskforces and Institutes provide a unique forum for people to collaborate across the NSW Health system. By bringing together leaders from primary, community and acute care settings we promote an integrated health system.

Audience:
This event is aimed at doctors, nurses, allied health professionals and managers with a special interest that work in NSW health services and consumers contributing to ACI networks.

Please note:
Photographs taken at this event may be published by the ACI for internal and/or external promotion, education or research purposes. If you do not wish your photograph to be taken please notify our staff.

Aims:
The forum will provide an opportunity for all Acute Stroke services to review the 2019 Stroke Foundations Acute Stroke Audit results and the Australian Stroke Clinical Registry data to date.

Sessions will cover how to use your data, showcase of successful data driven quality improvement and how to use data to develop business cases to attract additional resources.

There will be an opportunity to review NSW data against national acute stroke standard indicators and review benchmarking within NSW and nationally.

Cost:
Free

Registration:
There will be a virtual attendance option for regional teams and individuals and a face to face capacity for 45 people

Contact:
For more information please contact:
Kate Jackson, Stroke Network Manager
