COVID-19 related pressure injuries in patients and personnel, vaccine efficacy, social deprivation and mortality

Peer reviewed journals featured:

- A systematic review on COVID-19-related pressure injuries in patients and personnel [here]
- Observational studies on:
  - SARS-CoV-2 vaccination efficacy on hospitalisation and variants in the UK, Israel and France [here]
  - The impact of Pfizer vaccination on spread of variant B.1.1.7 (UK / Kent) in Israel [here]
  - Effectiveness of mRNA COVID-19 vaccines against SARS-CoV-2 infection in healthcare personnel [here]
  - Social deprivation as a risk factor for COVID-19 mortality in the UK [here]
  - Association between shift work and in-hospital COVID-19 positivity [here]

- Commentary on:
  - COVID-19 vaccinations and breakthrough infections in nursing homes [here]
  - COVID-19 in Tanzania [here]

Pre-peer review articles featured:

- Patterns of COVID-19 vaccine acceptance throughout the pandemic in 23 countries [here]
- Perceived public threat and willingness be vaccinated in Australia [here]
- Potential therapies to block platelet activation in vaccine-induced immune thrombotic thrombocytopenia [here]

Guidance and reports

- The World Health Organization published its weekly COVID-19 epidemiological report [here]

News and blogs

- How to predict a vaccine’s success without a large trial [here]
- Confronting anti-vaccination aggression [here]
- Pandemic preprints - a duty of responsible stewardship [here]
