

Steps to
**HOME
LADDER
SAFETY**

www.aci.health.nsw.gov.au/home-ladder-safety

Around the home, ladders are linked to more deaths and serious injuries than any other product.

Steps to home ladder safety

- ✓ **Check** – your ladder is in good condition and right height for the job
- ✓ **Set up** – your ladder in a safe position clear of powerlines and obstacles
- ✓ **Climb safely** – Face your ladder at all times and stay in the centre
- ✓ **Working** – Work within arm's reach from your ladder at all times
