

Confused Hospitalised Older Persons Program – CHOPS Staff questionnaire

The Agency for Clinical Innovation (ACI) is embarking on an evaluation of CHOPS at selected sites across NSW.

The expected benefits of CHOPS include improved identification and management, more knowledgeable staff, leading to improved treatment and prevention of delirium, reduced adverse events such as falls, and improved carer satisfaction with the hospital experience.

The primary aim of the evaluation is to identify factors that impede or facilitate the implementation of the program to enable ongoing improvement as the program evolves, to assist staff with knowledge about the program and to assess changes in clinical outcomes for patients.

To assist in the evaluation, please complete the following questions with regards to CHOPS at your facility.

Position.....Facility.....

<i>To what extent do you agree or disagree with the following statements?</i>	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
1. I have a good understanding of the issues that face older people experiencing delirium and/or confusion while in hospital	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. The unit where I work supports older people with, or at risk of, delirium and/or confusion	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3. I am supported by my unit to work effectively with older people with, or at risk of, delirium and/or confusion	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4. It is important to assess all older people presenting to Emergency Departments for, or at risk of, delirium and/or confusion	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5. It is important to assess all older people admitted to hospital for, or at risk of, delirium and/or confusion	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6. I have a sound knowledge of the Confused Hospitalised Older Persons (CHOPS) program	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7. I believe CHOPS has the potential to improve the care for older people in hospital	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
8. I use the tools provided through CHOPS to work with patients	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
9. Other staff in the unit where I work are aware of CHOPS	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
10. Other staff in the unit where I work are committed to CHOPS to improve the care of older people in our unit	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Do you think CHOPS can be improved? Please provide details.....

.....

Are there any barriers to implementing CHOPS at your site.....

.....

Thank you for taking the time to complete this questionnaire
