ACI

NSW Agency
for Clinical
Innovation

Front cover image: *'Woven Ways'*

'Woven Ways' begins with a deep yellow background representative of a starting point and visual Acknowledgement of Country. Textures and stylised imagery reference the Rock platforms found all over North Sydney. Its warm golden hues pay homage to The Cammeraygal people and The Garigal people, the traditional owners of Northern Sydney and their descendants; while the black provides contrast and represents the catalyst for change.

Large fluid spaces of stained colour lined by blue - grey and white weave across the canvas panels. The white outline defining a space; representing the organisation and outlying service provision. This space develops deeper purple hues only when overlapping the blue grey hues of the space representing the cultural landscape of Indigenous Australia.

These transitions of colour represent the collaboration, reciprocity and cultural understanding needed to achieve significant progress. The overlap of these spaces also representing the end goal, the cultural safety and genuine commitment needed, to bridge and close the gap between these two spaces.

Stylised designs of animals and traditional tools are scattered across each of the panels. They mimic the same transition of colour and visual metaphor when passing through the large overlapping spaces. Their various designs representing the diversity of Australia's Aboriginal Culture.

Encircling the whole image are winding goanna tracks, a visual metaphor for the journey and the many ways it winds before reaching its end. Coloured gold, they represent the strength gained through genuine partnerships and commitment.

When viewed as a whole *'Woven Ways'* is an artwork that responds visually to themes of collaboration, cultural safety and the metaphorical challenges and solutions that must be negotiated to achieve positive health outcomes for all parties involved.

'Woven Ways' was created by Aboriginal Artist, Jessica Birk, in collaboration with ACI staff who contributed to the vision and creation of the artwork.

Jessica Birk is a proud descendant of the Yaegl people of the Northern Rivers of NSW. Jessica was born and grew up within Northern Sydney and harbours a deep love and respect for this this land. Jessica's visual storytelling defines her colourful and layered artworks. These works explore themes of place and belonging, cultural identity and landscape.

Operational Plan

Vision: Better Healthcare: Better Outcomes

Introduction

The Agency for Clinical Innovation (ACI) works with clinicians, consumers and managers to design and promote better healthcare for NSW.

We provide expertise in service redesign and evaluation, specialist advice on healthcare innovation, initiatives including clinical guidelines and models of care, implementation support, knowledge sharing and continuous capability building.

Our Clinical Networks, Taskforces and Institutes provide a unique forum for people to collaborate across the NSW Health system. By bringing together leaders from primary, community and acute care settings we promote an integrated health system.

In 2015 the ACI developed a new three year Strategic Plan commencing on 1st July 2015. As a service improvement organisation, the focus of all the ACI's activities in our clinical networks, clinical redesign and implementation teams is to work with our colleagues in the 17 local health districts and specialty networks to deliver high quality healthcare.

The Operational Plan 2016/17 identifies the key operational actions to be undertaken by the ACI in the current year to deliver on the strategic initiatives in the ACI Strategic Plan 2015-18.

In 2016/17 there are 78 operational actions nominated for delivery by the six portfolios, Clinical Lead and Chief Executive.

The ACI Board receives a quarterly progress report on the operational actions nominated for delivery in each quarter.

Strategic Plan 2015 – 2018

Strategic Plan 2015 – 2018 Revised 07.06.2016

| <h3>Performance Measures</h3> <ol style="list-style-type: none"> 1. Website and social media usage. 2. Satisfaction score – access to ideas to make a difference. 3. Partner experience – improving healthcare. 4. Percentage of projects with improved clinical outcomes. 5. Percentage of projects which have undertaken health impact assessment for priority populations. 6. Partner experience – collaboration. 7. Partner experience – strategic priority alignment. 8. Agility assessment score. 9. Percentage of projects with identified health outcome measures. 10. Redesign capability development score. | | <h3>Strategic Initiatives</h3> <ol style="list-style-type: none"> 1. Review and evaluate partnerships through a rolling annual cycle. 2. Ensure all ACI projects and activities seek to close the gap in health outcomes for Aboriginal people and improve the health outcomes of other priority populations. 3. Establish relationships and work programs with Primary Health Networks. 4. Work in partnership with e-health to provide clinical leadership and expertise to inform the ICT agenda and activities. 5. Align our work with CEC to co-ordinate our activities in the LHDs. 6. Demonstrate a responsiveness to LHDs by working with them and other service providers on agreed priorities. 7. Implement a comprehensive strategy for organisational agility designed to make time, space and resources available to support rapid responses to changing system needs. 8. Develop an approach for defining and collecting health outcomes and an assessment of value-based healthcare. 9. Enhance and progress the ACI's strategy for reducing unwarranted clinical variation. 10. Promote and undertake research in large system changes. 11. Implement a model for consumer co-design. 12. Continue to build local capability in redesign, innovation and sustained improvement. 13. Utilise the Performance and Professional Development Framework to identify and further develop capability, foster career progression and promote workforce planning. 14. Develop strategies to identify new models to broaden clinical engagement. 15. Implement and evaluate the Reward and Recognition program. 16. Develop and implement programs to promote exchange of knowledge and shared learning. 17. Implement the Marketing and Communication Plan. 18. Develop and align planning cycle and business processes. | |
