

Be Pain Smart Clinic Royal Rehab

Royal Rehab runs an integrated chronic pain consultative clinic for people with a spinal cord injury or moderate to severe brain injury and chronic pain – the Be Pain Smart Clinic.

The Be Pain Smart Clinic provides:

- A multi-disciplinary pain clinic, staffed by clinicians (pain specialists, senior physiotherapist, senior clinical psychologist and other health professionals) with a specialised background in pain management working together with brain injury or spinal cord injury specialist teams.
- A multi-disciplinary pain assessment and management plans for people with chronic pain following a spinal cord injury and/or a moderate to severe traumatic brain injury.
- Pain Therapy Programs for people with chronic pain following a spinal cord injury and/or a moderate to severe traumatic brain injury.
- Consultation and liaison with local GPs, allied health providers and case managers.

The service is located at:

Royal Rehab

235 Morrison Road Ryde

The service is available for:

Clients who are funded under various schemes and insurers including icare, CTP and Workers Compensation schemes. The service is available for people who live across NSW who have pain and a spinal cord injury or brain injury. The clinic is unable to accept referrals for clients supported by NDIS.

**Telehealth consultations
are available**
